

IMPLEMENTING THE EU HEALTH TECHNOLOGY ASSESSMENT REGULATION

WHAT IS HTA?

HEALTH TECHNOLOGY ASSESSMENT:

Procedure for assessing the added value, effectiveness, costs and broader impact of health care interventions including medicines, medical devices and procedures.

- » Is a new medicine more effective in treating a certain disease?
- » Do expected costs and benefits present sufficient value-for-money when compared to alternative healthcare interventions?
- » How to compare a new medicine to an existing one considering patients, the disease, and the outcome for the patient?
- » Will the use of a new medical device result in better diagnosis or treatment?

HTA DOMAINS
